

James L. Robo

Chairman and Chief Executive Officer

Jim Robo is chairman and CEO of NextEra Energy, Inc. (NYSE: NEE), a leading clean energy company. He was named president and CEO in July 2012 and became chairman of the board of directors in December 2013. Mr. Robo is chairman of the company's rate-regulated electric utility subsidiary, Florida Power & Light Company, as well as chairman and CEO of NextEra Energy Partners, LP (NYSE: NEP), a growth-oriented limited partnership formed by NextEra Energy to acquire, manage and own contracted clean energy projects.

In December 2006, Mr. Robo was named president and chief operating officer of NextEra Energy. Prior to that, he had served as president of NextEra Energy Resources, LLC. He joined NextEra Energy as vice president of corporate development and strategy in March 2002.

Previously, Mr. Robo was president and CEO of a major division at GE Capital. He also served as chairman and CEO of GE Mexico and was a member of the GE corporate development team. Prior to joining GE, he was vice president of Strategic Planning Associates, a management consulting firm.

Mr. Robo received his Bachelor of Arts degree summa cum laude from Harvard College in 1984 and his MBA in 1988 from Harvard Business School, where he was a Baker Scholar. He is a director of J.B. Hunt Transport Services, Inc., one of the largest transportation logistics companies in North America, and he has served as lead independent director since 2012.

NextEra Energy, Inc. (NYSE: NEE) is a leading clean energy company with consolidated revenues of approximately \$17.5 billion and approximately 14,300 employees in 27 states and Canada as of year-end 2015, as well as approximately 45,000 megawatts of generating capacity, which includes megawatts associated with noncontrolling interests related to NextEra Energy Partners, LP (NYSE: NEP) as of April 2016. Headquartered in Juno Beach, Fla., NextEra Energy's principal subsidiaries are Florida Power & Light Company, which serves more than 4.8 million customer accounts in Florida and is one of the largest rate-regulated electric utilities in the United States, and NextEra Energy Resources, LLC, which, together with its affiliated entities, is the world's largest generator of renewable energy from the wind and sun. Through its subsidiaries, NextEra Energy generates clean, emissions-free electricity from eight commercial nuclear power units in Florida, New Hampshire, Iowa and Wisconsin. A Fortune 200 company and included in the S&P 100 index, NextEra Energy has been recognized often by third parties for its efforts in sustainability, corporate responsibility, ethics and compliance, and diversity, and has been ranked No. 1 in the electric and gas utilities industry in Fortune's 2016 list of "World's Most Admired Companies."
